LEWS WRITES A CARD FOR AND AGAINST. Appeals and Arguments Before the Inter-BOUT THE COTTON EXCHANGE

washington, April 21.—The interstate commerce commission is being flooded with appeals for relief, requests for constructions of the law and decisions upon hypothetical questions and conundrums of a bewildering diversity of character. A majority of those who ask for relief find their grievance in the long and short haul section, but many protests have been received against a suspension of that section.

The New Almader Quicksilver Mining company, of California, the largest quicksilver producing concern in the United States, writes that its principal market is in New York, where it is their productions comes in competition with Spanish quicksilver. The present transcontinental rates have shut them out of the New York market entirely.

On the other hand, manufacturers of the Pacific coast are protesting energetically against a suspension of the fourth section, so far as it applies to trans-continental routes. An application from the Southern Pacific road for a suspension of the fourth section was argued by counsel this afternoon and the Northern Pacific road made a similar application in the afternoon. Counsel for a prominent New York shipping firm, which runs a line of vessels via Cape Horn, was also heard today in opsels via Cape Horn, was also heard today in op-position to a suspension of the fourth section. forth that the rates charged by the New York, Lake Erie and Western railroad company, for transporting milk to Jersey City, a distance of fifty miles, are unreasonable and unjust. The rate charged amounts to 35 per cent of the value of the product, with five per cent more for ferirage to New York, which is more than is charged upon other traffic of like value and no greater risk. The charge upon milk from Summit, in New York, a distance of 184 miles, is the same as from Orange county. In the estimation of the petitioners this being no greater for a longer than for a shorter distance; it is undue and unjust preference to particular persons and localities.

Like complaints are made against the New York, Ontario and Western; New York, Susquehanna and Western; New York, Susquehanna and Western, and Lehigh Valley and Hudson River roads. The petitioners ask such immediate action as shall seem just and equitable to the end thatsaid corporation may be restrained from continuance of the acts.

Justice, Bateman & Co., wool commission merchants of Philadelphis, in a letter to the commission, express the hope that section four will not be suspended as regards trans-continental lines. The protests against the long and shorthaul, they say, come from parties who have heretofore enjoyed the greatest benefits from cut rates and who have had unfair advantage. For instance, they continue, last year the merchants of San Francisco had a rate of fifty cents per hundred pounds on wool, while dealers and growers located several hundred miles further east had to pay \$3 to \$50 per 100 pounds, if that wool was shipped direct to the east. There is wool, they say, now in Philadelphia grown in Montana which the railroads forced to be sent thence via San Francisco, making a haul of 4,000 miles, while, if shipped direct, it would have traveled only 2,000 miles. The object of the discrimination was to give the San Francisco merchants an opportunity to exact toll before it reached its natural destination.

A COMPLICATED CASE BROUGHT TO SIGHT.

The Divorce Laws of Three Countries Involved—A Wo man Twice Divorced—The Lawyers Pussled to Find Out Who is Her Lawful Hus-band—A Rather Singular Career.

KINGSTON, N. Y., April 21.—A complicated case of matrimonial alliance has been brought to light through a hearing before Drought to light through a hearing better Judge Parker in the supreme court, chambers, on Saturday last. The case came up in an ac-tion for divorce brought by William H. Stew-art against Annie Stewart. It involves many fine points as to the marriage and divorce laws of three countries-England, Canada and the United States. The facts are as follows:

On February 18, 1876, Annie Towers, a buxom English maiden of twenty, was married to Charles Tate, at the parish church in the parish of St. John's, Middleborough, county of York, England. In 1878 Mrs. Tate brought York, England. In 1878 Mrs. Tate brought an action of divorce against her husband on the ground for adultery. On May 5, 1879, an order was entered stipulating, among other things, "that the marriage be dissolved unless sufficient canse be shown to the court why the said de cree should not be made absolute within six months from the making thereof." Before the expiration of the six months the plaintiff came to the United States, and drifted to this city, where she was slightly acquainted. Here she where she was slightly acquainted. Here she became acquainted with Stewart, and they were married on July 2d, 1879. Before the marriage she informed him of her marital relations in England and the divorce proceedings. Both at that time were under the impression that the Tate marriage was dissolved. A final order in the English divorce was entered in January 1889. After Stawart lived with pression that the Tate marriage was dissolved. A final order in the English divorce was entered in January, 1880. After Stewart lived with the woman for two years and two children were born to them, some doubt arose as to the English divorce proceeding. She requested Stewart to have the marriage ceremony performed over, but this he refused to do. They then separated, and have not lived together since. Soon after the separation Mrs. Stewart went to the province of Ontario, Canada, and on September 20, 1884, she married one Isaac Aves at Southampton, in that province, and has since lived with him. Her Canadian husband at present lives in Stratford, Ontario, and is a wealthy stock raiser. He was also made aware of her peculiar matrimonial alliances,

Stewart has brought his action for divorce in the supreme court of this state for adultery on account of the defendant in her auswer admits all the facts as regards the marriage and divorce proceedings in England, but alleges that she had not in fact been divorced from Tate at the time of her marriage to Stewart, and that at the time she married Stewart she was the wife of Charles Tate, who was still living. She therefore denies any adultery with Aves, and asks for a dismissal of the complaint and that judgment enter declaring her marriage contract with Stewart void.

The leading question submitted to the court

claring her marriage contract with Stewart void.

The leading question submitted to the court to determine is whether the second order entered in the English court dissolved the marriage on September 5, 1879, which was six months after the first order was entered, or whether the second order simply gave effect to the first order, and the marriage was dissolved when the first order was entered. At all events it places the fair defendant in a very peculiar position. She is the wife of somebody, and who is it? If her marriage in this city is declared legal, then her marriage in Canada is illegal. The papers in the case were served upon her a few days ago while on a visit to this city, where she is at present awaiting the decision of the court.

THE BLACKWOOD CASE.

Governor Richardson to Issue a Requisition for Blackwood and Stone. COLUMBIA, S. C., April 21.—[Special.]—The action of Governor Gordon in the Blackwood case is thought to be grounded on good precedents, but it somewhat embarrasses the situation. The surrender of Blackwood and the delivery here of Officer Stone would have settled the reatter. Governor Richardson at delivery here of Officer Stone would have settled the matter. Governor Richardson attaches very great importance to the case, and he now perhaps more exercised than ever before. Attorney-General Earle, of this state, is here in consultation with the governor. The matter was considered at the executive office today, but no action was taken. It is proposed, however, to use all lawful means to restore Blackwood to his home till taken by a formal requisition from Governor Gordon. A requisition will also be issued for Stone. Public interest in the affair is not great.

HAIL STONE STORIES. Remarkable Rain and Hail Storms in the Southwest.

ROLLING FORK, Miss., April 21.—At 2:15 this evening, a hail storm passed over this section, the like of which has never been witnessed here. When the hail first began to fall, people thought the roofs were being torn from their houses. It hailed steadily for thirteen minutes and thousands of hail stones fell that were larger than hen's eggs. Several were picked up that measured 5½ inches in circumference and two weighed 4½ ounces. Holes were knecked in the roofs of houses and trees were partially stripped of their foliage.

Evansville, Ind., April 21.—A horrible accident occurred on the main line of the Louisville, Evansville and St. Louis Air-Line railroad yesterday, near Tazewell, in which three men were killed outright, two fatally injured and two others are still missing. Shortly before the regular freight train bound east was due, a train composed of fifteen cars, loaded with crossties, was ordered to side track, but before the train reached the switch the freight arrived and was assisting the former up the grade, When about half way the draw bar pulled out from one of the cars and the rear portion of the tie train started back down grade; When near the bottom the rear cars jumped the track and the remaining portion of the rear section piled one on the other. There were thirty laborers on the train at the time of the accident, and among these the casualties occurred.

Chicago, April 21.—The Daily News says a letter from Rudolph Schnaubelt, the much locked for anarchist, and alleged thrower of the Hsymarket bomb, has been received in Chicago, and those who are in position to know do not for a moment doubt its authenticity. The let ter is dated, "Christiana, Norway, March 18th, 1887," and reached here through the medium of an anarchist sheet, issued in London by an Austrian socialist named Joseph Picket, who is an old friend of Schnaubelt. The fugitive denies throwing the bomb, but intimates that he is sorry he did not do it, and that he only left because he knew it was not safe for him here. He deferred any account of his travels until he can write again, but it is understood by his friends here that he was on the Pacific cosst until the anarchist trial ended in Chicago, and that he worked his way to Canota, thence going to Sidney, later to Bombay and finally to Norway. RIDENOUR CONVICTED.

The Jury's Verdict Against the Murderer of Young Broy.

Winchester, Va., April 21.—The Ridenour murder case was given to the jury this afternoon, after a four-hours' speech from Commonwealth's Attorney R. E. Byrd. The jury was out one hour and then returned a verdict of guilty of murder in the first degree, as charged in the indictment. The prisoner was considerably agitated, leaning over first to the jailer and then to his aged mother, whispering to each. He soon regained his usual remarkable composure and nodded recognition to a friend in the room. The case has excited great interest, the courthouse being crowded during every one of the fifteen days. A motion has been made by counsel for the defense for a new trial. For intricate points of law and the number of w tnesses, this is the most interesting case. EXCITEMENT IN FRANCE

OVER THE ARREST OF AN OFFICER ON THE FRONTIER.

A French Commissary Crosses the Line and is Ar-rested by German Police—He Knocks Them Down and is Bearrested on French Soil —Other Interesting Foreign News.

PARIS, April 21 .- M. Schnaebeles, special French commissary at Pagny Sur Moselle de-pot, has been arrested by the Germans. He had received several letters from the German police commissioner at Ars, asking him to come to that place and confer with him regarding the frontier service. He finally agreed to do so. While on his way to Ars he was roughly seized by the German police and was taken to Noveant, from which place he was sent to Metz. The Metzer-Zeitung says that Schnaebeles's arrest is due to his connection with the anti-German agitation conducted by the pa-triotic league. But the people of Pagny Sur Moselle declare this to be entirely untrue say he had nothing to do with the agitation. The incident has thrown the inhabitants of Metz and Nancy into the wildest state of excitement.

4 p. m.-Rentes were unfavorably affected by the arrest of M. Schnaebeles. The market for three per cent rentes for account became flat and quotations declined 45 centimes during the afternoon, closing at the lowest price.

and quotations declined 45 centimes during the afternoon, closing at the lowest price.

Evening—The arrest of Schnaebeles has produced a profound sensation, and it is feared may lead to unfortunate results. Le Paris calls it another provocation, and asks if Bismarck is seeking a casus belli.

The Germans requested Commissary Schaebeles to set up one of the posts which mark the frontier. The commissary crossed the boundary and advanced a few yards on German soil, when he was seized by German police agents, who were disguised in gray blouses. He knocked the agents down and escaped back to French territory, but he was again seized, handcuffed and sent to Metz, where he was placed in prison in which accused persons are confined before trial. The warrant for arrest emanated from the public prosecutor at Metz, who acted under instructions from Strasbourg. The French procurator at Nancy has gone to Pagny to inquire into the affair.

Most of the Paris evening papers make no comment on the incident. La Liberte says it is expedient to refraim from comment until Germany shall have explained the occurrence.

marck's Threat.

Berlin, April 21.—The debate on the ecclesiastical bill was begun in the lower house of the Prussian diet today. Herr Windthorst, clerical leader, declared that the center party would submit to the pope's wishes and would vote for the bill as it passed the upper house, and without offering any of the amendments which the center had intended to propose as necessary to make the bill entirely acceptable to the Catholics of Germany. The center party, Windthorst added, would renew the fight against the government if at any time Catholic interests were affected.

Bismarck declared that if the bill was rejected he would abandon his office as president of the ministry of state for Prussia and devote his entire time to the service of the empire. As, perhaps, he said, a hard external and internal struggle against the revolutionary party is imminent I desire first to settle all unnecessary internal disputes.

Herr Richter condemned the bill because, he said, the provisions regarding the right of confirmation and protest by the state in ecclesian. marck's Threat.

interfering in elections for membership in the reichstag.

Bismarck declared that Richter was more Catholic than the pope, and added:

It must be admitted that in the eyes of German Catholics, the papacy, in result of the elections would have been the same with or without the opposition of the centrists. The result of the elections was not the outcome of anxiety, but the expression of exasperation, at the attitude of the opposition under Richter. The point at issue was not to combat a political group, but to secure the preservation of the empire from injury and that if desired to form a majority for myself was quite natural. All national parties should endeavor to meet the curla so far as it was compatible with state rights. This is feasible by adopting the present bill as it passed

The modifications will increase the government's arduous task. In all phases of the kulturkampfe acted in accordance with my political convictions, the bill concedes nothing that will undergo the state's authority.

Bismarck then appealed to members of the national parties to not reject the bill. The moment was favorable for the conclusion of peace in the religious war that had so long been waged in Germany. He declared that a considerable portion of his influence in Europe rested on the confidence manifested in his political honesty and trustworthiness by representatives of the German people.

tending to strengthen the pope's hierarchical power.

Bismarck, in reply to this, observed that Virchow opposed him as a matter of principle on all great questions. He said:

I never described the May laws as a final institution, but always as the laws of combat, as is now the case with the anti-socialist laws. I have solely striven to satisfy the lovers of peace among the Catholics. I never aimed to keep a portion of my fellow-citizens under permanent, pressure.

Von Gerlach expressed approval of the bill, coupled with the wish that greater independence might be granted the evangelical church, In refuting Herr Richter's statements as to the pope's meddling in the recent elections, Bismarck today remarked that Richter apparently did not even read papers which he himself wrote or inspired—or he would know that in French political circles Rassia's attitude was very carefully watched, and that even with most of the nationalists papers of Russia the question whether France would be a friend or enemy in the event of the adoption of any particular policy played a very important part. Richter, continued the chancellor, had referred to England with great emphasis, which was all very well, if his references were correct, but before emphasizing them he ought to have understood the political situation and recent events there.

Prince Bismarck further said there was but cent events there.

Prince Bismarck further said there was but

Activity Among German Troops. Beelin, April 21 .- The activity shown in military circles during the past few days and the fact that large numbers of soldiers have traveled over the various railways en route to join their re-spective regiments, have given rise to fresh war romors and caused much uneastness. It is semi-officially explained, however, that all this activity is due solely to the fact that the reserves have been called out for the usual spring drill.

LONDON, April 21 .- The Times says that LONDON, April 21.—The Times says that Lord Salisbury's offer to the United States government, looking to the settlement of the fisheries question, contained in his dispatch of March 24, is generous and almost quixotic. Har. Goschen Submits His Estimate to Parliament.

London, April 21.—Goschen, chancellor of the exchequer, introduced the budget in the house of commons this afternoon. From it it appears that during the last year the expenses of government amounted to 9,00,000 pounds and that the revenues reached the same sum. There has been a saving of,425,300 in any estimates and of 434,700 in estimates for the civil service. The revenue obtained by taxes on alcoholic liquors had decreased £190,000, while that derived from beer tax had increased £45,000. Receipts from wine taxes had fallen off £93,000, and those from tax on tea had largely increased. Sir Wm. Vernon Harcourt had estimated that the surplus for the year would be £259,000, while it really reached £776,000.

It is also proposed to take one penny per pound sterling off the income tax, and four pence per pound off the tobacco tax, and four pence per pound off the tobacco tax, and to reduce taxation on marine policies. The budget was a complete surprise to the house of commons. Many of its proposals—notably, those relating to the national debt charges—will be vigorously opposed. It is maintained that Mr. Goschen has resorted to unusual measures of finance in order to prevent a budget that may serve the conservatives at the next general election. The conservatives are much irritated at Lord Randolph Churchill's attitude.

The budget estimates the revenues for the coming year at £91,156,000 and expenditures at £90,180,000. It is proposed to raise £100,000 by charging ton shillings transfer duty on each one-hundred debentures of stock which has hitherto almost escaped duty. To clear the budget of local loans, it intended to cancel £37,000,000 of other portions of the public debt and create the same amount of local loan stock, charging the local loan budget with an annuity of £100,000.

Sir William Vernon Horourt congratulated Mr. Goschen upon the ability he had displayed. He regretted, however, that nothing had been said about gold coinage. He condemned the proposal to

dent.

Lord Randolph Churchill also regretted the absence of any reference to gold coinage. He criticated adversely Mr. Goschen's estimates. The budget he said gave no real indication of economy and retrenchment. He believed a reduction of at least £150,000 was possible in the civil service estimates. If an increase in expenditures for national defenses was necessary the amount required should be raised by taxation, not by reducing the repsyment of the debt. He also objected to the proposed contributions in aid of local rates as likely to retard local government reform.

local rates as likely to retard local government reform.

In conclusion, he said: That if Mr. Goschen's proposals had been made by him, they would have aroused the indignation of the whole country and probably have been rejected.

Mr. Goschen, in a general reply, excused himself for not having touched upon the question of gold coinage on the ground of a lack of time to deal thoroughly with the subject. He defended his proposals, adding that he would be glad if the house should definitely express its wishes with regard to expenditures for the defense. His experience respecting former reductions had been that they were almost always followed by spasmodic increases under the influence of panic.

Sir John Lubbock objected to reducing the repayment of the debt and expressed the hope that Mr. Goschen would propose some alternative.

EMIGRATION FROM GERMAMY.

A Report to the Reichstag Shows a

Decrease.

Berlin, April 21.—An official report upon Beelin, April 21.—An official report upon emigration has been presented to the reichstag. It shows that the number of emigrants from Germany who passed through Hamburg, Bremen and Stellin, during the year 1886 was 66,671, or a decrease of over 22,000 from the previous year, when 88,900 persons left the empire. The report says that, on the other hand, emigration from Austria, Hungary, Norway and Sweden, through the same ports in 1886 was largely in excess of that of 1885. Most of the German emigrants were from the farming districts of Prussia. None of them went to the African colonies.

LIVERPOOL, April 21.—Arrivals of emigrants en route to the United States have attained such unusual magnitude that many extra steamers are being employed to transport them hence, the capacity of regular liners being inadequate to the demands for passage.

OTTAWA, Ont., April 21.—The house of commons galleries were packed to overflowing this afternoon, when Curran, member for Montreal, rose to move a resolution expressing profound regret at the introduction into the imperial house of commons of the coercion bill, and protesting against its adoption as being subversive of the rights and liborties of the queen's subjects in Ireland. The resolution further expressed the hope that there may speedily be granted to Ireland such a measure of home rule as is enjoyed in Canada, which, while satisfying the national aspirations of the speedily be granted to Ireland such a measure of home rule as is enjoyed in Canada, which, while satisfying the national aspirations of the people of Ireland for self-government shall also be consistent with the integrity of the empira as a whole. His speech was brief but to the point. The main contention being that the coercion bill would do more harm than good.

The debate was continued until nearly midnight, when it was adjourned until tomorrow.

GLADSTONE STILL HAS HOPE. He is Prepared to Face Anything to Defeat

Coercion London, April 21 .- Mr. Gladstone writes LONDON, April 21.—Mr. Gladstone writes that he does not desire a general election to parliament until the English mind is as ripe on the Irish question as Welch and Scotch minds are, but that the time is rapidly advancing. "Anyhow," he says, "I am prepared to face anything to defeat coercion. I continue to hope for much from a vigorous action on the part of constituencies whose representatives in parliament have decisive votes on the issue."

In the house of lords today Earl Caragan moved a second reading of the land bill. Baron Denman moved a rejection of the bill, which, he said, was likely to hurry the landlord and tenant into litigation. The debate was no concluded today.

London, April 21.—A dispatch from Rome to the Chronicle says the vatican is renewing its efforts to induce the Rev. Dr. McGlynn, of New York, to come to Rome. The pope's decision on the Knights of Labor question has displeased many of the reactionary cardinals, who have signed a remonstrance addressed to the holy see, maintaining that the knights organization contains all the elements of socialism, and that the case ought to be reconsidered. The pope has ordered the Catholic press to avoid a discussion of the matter.

HILLSBORO.

THE CLUSTERING MEMORIES OF

irth Place—A Race of Fine Old Georgia Gen-tlemen—An Old Cemetery With Only Six Graves — The Hillsboro of 1880,

As the train rolled up to what will be the depot, I gazed out of a window, eager to catch my first glimpse of the historic old town of Hillsboro. The first object that caught my eye was the stars and stripes floating in the breeze from a tall flag pole and the big flag wrapping itself lovingly about the scarred trunk of an aged oak. When last that flag float d above these hills Sherman was in command, and the sight of that banner waving in vain glorious triumph above the smoking ruins of the town carried with it consternation and dismay.

Then the stricken south, too weak to revenge and too proud to supplicate, folded her bleeding arms across her wounded bosom, and with bowed head learned to bear her sorrow in silence. When the branches of you aged oak were being riven with leaden rain, the sapling of which the with leaden rain, the sapling of which the flagstaff was fashioned was but an embryo tree. Types of the old and the new they stood today the one bearing the proud emblem, sacred to home and country, which reaches out and embraces in its silken folds the ancient tree. May it flutter forevermore over this land of the leal.

May it flutter forevermore over this land of the leal.

Hillsboro was located in the mystic ages of the long ago, and in 1824, when Macon was a trading post, and Madison, Eatonton and many other towns were unknown, Hillsboro was the seat of learning patronized by the proudest, truest and most honorable people that have ever existed on earth.

I could speak to those ancient oaks and con-

I could speak to those ancient oaks and conjure up names from these old pigeon holes of the past that are emblazoned on the pases of the most glorious of all histories. I could tell you how Jasper county has furnished governors for half a dozen great states, and has enough just men now living to fill the executive chairs of all the rest, including the supreme courtjudges, senators, states men in the broadest meaning of the word. There, in that old time hall of learning, "the academy," some of the brightest lights of a generation that will never be forgotten shone forth like a warming sun of promise, only to ascend to the zenith of morpromise, only to seemd to the zenith of mor-tal fame and finally to sink in the golden glory of a perfect day.
Standing on the hill I looked far to the

Standing on the hill I looked far to the north, far to the south, eastward, westward-all around I feasted my kindling vision on scenes of wondrous beauty, too vast for pen of mine to attempt to describe. Great forests rising proudly from green and shady valleys to the crests of those sun-kissed hills, alive with the blood of spring, too delicate for mortal pen in its revivifying pulsations. Leaves so shaded in tint that one mist-ok them for blockers, inter responding to the cell of the blossoms just responding to the call of the gentle voice of nature, which filled the woods and fields with the soft echoes of its idlelic

whisperings.
Ah, those swelling fields, where the reaper gathers the golden grain in summer, and in autumn grows the snowy cotton and Indian

corn.
In 1860, Hillsboro boasted a hotel, Masonic lodge and half a dozen thriving stores, as well as the academy, church and a large manufac as the academy, church and a large manufac-tory and repair shop. In 1865 her vanquished sons and sorrowing daughters watched the crumbling ruins of all but the academy, while the black smoke ascended upward from this mighty sacrifice to the insatiate God of war. The ruins remain today, eloquent tokens of what the maligners of a brave people would term insurrection and rebellion, but what, un-der more foreible circumstances would have der more forcible circumstances would have

der more forcible circumstances would have been written in letters of gold as the sublimity of patriotism.

At the end of the principal street, where the road to Monticello bids adieu to the road to Eatonton, and each goes winding around over hill and dale, is a spot that is holy ground. As I gazed on the swarthy stones arranged in the shape of a parallellogram I thought

"How firm a foundation ye saints of the Lord." "How firm a foundation ye saints of the Lord."
Here was the place where the grand old yeomany came to worship the god of benevolence and charity and love, with a faith as simple and trusting as that of the merry birds who in the forest hard by, joined their tender trebles to the grand old hymns of thanksgiving that welled up from honest souls and gushed from brawny throats as pure and unadulterated as the water bubbling up in the old spring at the foot of the hill.

foot of the hill.

The old cemetery is located there and I think The old cemetery is located there and I tains there are six graves in a burial place three quarters of a century old, in the heart of a populous country.

"I am eighty-nine years old," said old grandsire Ezeel, "and I have lived here for seventy-six years."

I looked the old man over and replied, "Well my dear sir. I see no reason why you

sire Ezzei, and I have fived here for severity six years."

I looked the old man over and replied, "Well, my dear sir, I see no reason why you should not hold the position permanently."

And it is a fact that nothing dies or rots in Jasper county. When a man gets tired of living he removes to another county and commits suicide. This good old man is as active and jolly as a boy. He rede ten miles to attend the celebration this morning and is as fresh as at forty. His memory has worn out with the wear and tear incident to the development of this progressive age, but he has forgotten more than I'll ever know and is still wise in his generation. The sunset of his life is as rosy as was the dawn.

At the top of a steep hill, with a broad plantation stretching away to the horizon line on the right, and a lordly forest standing in primoval luxuriance on the left, is the Greer house, where Ben Hill was born.

Awed by the glamor and the glory that clusters around the history of that knightly career, it was with bowed head and bated breath that I gazed in reverence on that sacred spot and breathed that sainted name.

Those gnarled and knotted cedars in the yard were more blessed by far than I, for they had witnessed the boyish sports, and had been the mute and attentive listeners to the morning song of boyish hopes so soon to peal forth in grand and stirring strains of deepest melody, while an admiring world looked on and applanded. These spreading oaks, budding out with the promises of undying youth in their green old age could tell of childish tilts and tourney, where the youthful victor, aflush with triumph, reached out in search of grander deeds to accomplish and greater victories to achieve.

where the youthful victor, aftish with triumph, reached out in search of grander deeds to accomplish and greater victories to achieve. Beneath their sheltering arms were fostered those germs of justice and integrity, of honor and of right that were to develop into the crowning glory of a perfect manhood which made Ben Bill the valiant leader, the wise counselor and the triumphant charming of accounselor and the triumphant charming of counselor and the triumphant champion of an

made Ben Bill the valiant leader, the wise counselor and the triumphant champion of an oppressed people.

The old rose bushes are all aglow with fragrant bloom, from which his infant hands plucked many a blossom in the long ago. Those same tender hands grew strong and nervous and wielded the stoutest lance that knightly southron ever poised in defense of the liberties of his country.

By the same winding road through this lovely land we returned to the ancient village. How generous was the welcome with which these fine old Georgia gentlemen greeted us. This is no half-hearted hospitality that outstretches the right hand in generous friendliness and niggardly clasps the left with selfish greed. Both hands, horny hands of roughened by the dignity of toil—one held warm and open as are the hearts that move them. It makes a man better to associate with such a people as this. The ungenerous soul is taught the beauties of unselfishness, and the narrow mind is broadened by the flood tide of liberality.

Hillsboro will never be a great city. It is not in the nature of things that it should be. The big cities are about all laid out. But it will grow to be a thriving town, with a fortile country at its back, and it will be a pleasant place to live at, and people will look pleased and happy when they tell you they are going to Hillsboro.

People will drink from its deep, cool wells

People will drink from its deep, cool wells and thank God for the blessing of pure water. They will breathe its cooling air and murmur a pealm of thanksgiving. They will eat of its fruits and pray blessings on this favored land.

Children will come to the old scademy to be taught, and the elders will assemble in the little white church to do reverence to the Great Giver of all these good things. Men will come and go, and by and by there will be new homes in those weste and desolate places, and the dawning of a fairer day will gild the hilltops and dispel the shalowy twilight of isolation from those fruitful vales, and a clearer note will be heard in the song of the husbandman, and voice of the reaper will thrill with a lasting peace and bounteous prosperity.

Seeing that the negro was moving something over his head, which he thought was a stick, he replied: "Why don't you hit him with your stick?"
Just then the parties came down together, and in an instant he heard the report of a pistel, and the negro, who was the larger man, an off with his coat on fire.

He saw the officer looking around, and heard him remark, "Here's my belt," as he stooped and picked something up. That was all he saw or knew of the matter.

Drs. J. G. McCrary and F. Walker were then called, and testified as to the wound, which has been published in these columns already. Dr. McCrary said that when he was first called be observed that the negro was under the influ-

the Old Relies.

Macon, Ga., April 21.—[Special.]—Bill Evers, of East Macon, still has his old confederate uniform, and haversack and canteen, and on last Fourth of July he came out arrayed in the old dress. Besides, he has a real old "Joe Brown pike" made of steel, by McEiroy, an old Macon blacksmith, in the war time. The pike is made like a spear, is flat, and the blade is about three inches wide, coming to a point and sharp on either edge. The blade proper is about ten inches long. There are two barbs, setting at right angles like the guard of a dirk, and they were both abarpened at the point and on the edges. There is a flat handle as me eighteen inches long, that was intended to be inserted in a turned wooden staff and riveted fast. The staff was painted red and the blade highly polished, so the weapon was quite a formidable looking affair. Bill treasures the old relic very highly and says that sometime he is going to Atlanta and exhibit it to the aged senator from whom it takes its suggestive name, Joe Brown, the old war governor.

THE TWO CITIES TO BE CONNECT-ED BY RAIL

Interview With Major Morrison, Chief Engineer of the Georgia, Carolina and Northern Railroade Georgia, Carolina and Northern Railroa How Work in Progressing and the Gen-eral Outlook-Other Athens News,

ATHENS, Ga., April 21 .- [Special.] - Major Morrison, chief engineer of the Georgia, Carolina and Northern railroad, reached the city yesterday from a town over the Carolina lines of the new road. A reporter interviewed the major and extracted the following informa-"Have you broken dirt?" was asked.

"No, but it will be in a few days. Hands were set to work yesterday clearing off the right of way on the North Carolina line to get ready for the picks and shovels, and as soon as the timber is removed, the grading squad will step in. We would have broken dirt long ago but did not have the line located. We want a first-class road and to secure it we had to take the greatest pains to get right grades and curves and at the same time make this distance as near on air-line as possible."

"How much of the route have you located?" 'Only ten miles, enough to start grading on, but the engineers are hard at work on the remaining distance, and will have sections located as fast as the contractors want them.' "How are you getting on with the Georgia

survey?" "Very well, indeed, although it is a very rough country. We have a good route from Athens to the Savannah river, but are running lines to see if it cannot be improved upon. We will pass by Colonel James M. Smith's and cross Broad river about the mouth of Beaverdam creek. I will recall the engineering corps from that portion of the line and set it to work between Athens and Atlanta, as we intend to run another line via Lawrenceville and want to settle on the route we will adopt as soon as possible, so as to get to grading."

"When will you break dirt between Athens "In about two months. We cannot get ready sconer, as it is no easy matter to locate a rail-road in as rough a country as we must traverse.

One thing you may rest assured of is in less than two years the cars will be running from Athens to Atlanta. It is the intention of the company to connect the two ends first and get them in operation. The road will be complet ed just as soon as it can be built, with an eve to good work and a proper eye to economy in its construction."

Grand Celebration to Take Place Next Tuesday.

SAVANNAH, Ga., April 21.—[Special.]—The sirty-eighth anniversary of the introduction of Odd Fellowship into the United States will be celebrated in Savannah on next Tuesday with impressive ceremonies. Grand Master C B LaHatte, of Louisville, Ga., will reach Savannah on Sunday next and complete his arangements for the celebration. He will be assisted by David Porter, deputy grand master of Savannah; D. B. Woodruff, of Macon, grand warden, and architect of the Odd Fellow building; John G. Deitz, of Macon; Grand Secretary H. H. Osborne, of Savannah, and Grand Marshal Charles H. Dorsett, grand representative. These officials will assist in the dedicatory services of the Odd Fellows building. The visitors have been invited from all societies of the state. The several local lodges will assemble in the Husser hall, in the Maonic temple, at 3 p. m. on Thursday next, and prepare for their parade. The procession will leave the hall at 3:30 o'clock and proceed down Liberty to Drayton, thence to Bay, up Bay to Ball, thence to Broughton and to Barnard and to the Odd Fellows' hall, when they will meet in the fourth story. The dedicatory services will then be held. After these exercises shall have been finished the grand marshl will make an address, and the meeting will be dismissed. At 8:30 o'clock in the evening the Odd Fellows will assemble in the lodge room and hold their anniversary exercises, at the close of which the invited guests will be taken to the upper story, where a banquet will be prepared. Sentiments and toasts will be given, which will be responded to by prominent Odd Fellows in the state. When the banquet shall have been finished, the ficor will be cleared and dancing will be indulged in. The new building which will be thus dedicated on 68th anniversary, cost \$54,000, and is a credit to the Odd Fellows in Georgia. It is complete in all its spointments, and is one of the handsemest structures in Savannah.

This beautiful rite was instituted in Geor-It was suggested and founded by Mrs. C. H. Williams, of Columbus, the widow of a gallant confederate colonel, who fell in battle for the cause he believed to be right. The 26th of April was chosen because it is the anniversary of the surrender of the last organized army of the confederacy. The day has been piously observed throughout the south ever since it was set apart for this holy purpose. The women of the south instituted it, and they have constantly main tained it with loving pride and heroic devo tion. Next Tuesday a million women will meet about the graves of "the boys" who wore the gray, and the sun of that day will set upon a myriad of graves covered flowers that have been tenderly laid by loving hands to speak, not of sectional hate, but of that feeling common to humanity, which attests the love of heroic courage, and which emblemizes "the resurrection and the

Called Back.

According to the Boston Globe it is "good form" now to admire and be familiar with Poe's writings. The Browning craze is on the wane, and the fickle public must have a new literary fad.

Discussing the matter still further, the Globe makes some very sensible points. It says that Poe's attacks upon all the literary men of his generation in this country arrayed against him so many powerful enemies that his fame has suffered as a natural consequence. It was this feeling that caused certain unscrupulous biographers to show up only the wost side of Poe's life, and they made the story so interesting that people read it, moralized over his melancholy ca reer and forgot to search his books. But there is a reaction. The best French and English critics have had so much to say in his favor that his countrymen are now be ginning to study the tangled medley of mystery and music wrought by this wonderful man. Not only Poe's poetry, but his short stories, are being called for on every hand, These short stories, by the way, characterized by some forgotten critic as "a mixture of Hawthorne and delirium tremens," are among the best of their kind, and those who read them for the first time will enjoy a gen-

nine sensation. Now that the bitterness caused by Poe's sharp criticisms has died away, it is well that a later generation should call him back and review both his career and his works.

Coming Home to Roost.

It appears that "Henry Clews" is not : name to conjure with in the cotton exchange. He was a candidate for membership the other day, and would have been promptly blackballed but for the fact that he withdrew his name in the nick of time.

Clews is quite noted as a "financier" and "developer." When Georgia was in the hands of the "developers" Clews was in clover. Some bogus bonds were issued, and, although the treasurer of the state, the late Dr. Angier, a consistent republican, but an henest man, advertised the fact that these bonds were worthless, Clews took charge of the issue and managed to dispose of a goodly number of the fraudulent securities to his dupes. He also, as he now says, held on to a goodly number.

For many years he has been hanging around Wall street, attacking the credit of Georgia, and the result of it is that Georgia bonds are higher and harder to get than ever-a fact which shows that one small rascal cannot afford to buck against a great state.

Clews has been playing a losing game from the first, and the withdrawal of his name from the cotton exchange is one of the results. There are some hints, in our special telegram of yesterday, of certain allega tions that he would be called on to answer. whereupon he "called in his cognomen," as the college boys say, and the cotton exchange will not be pestered any more with Mr. Henry Clews.

Worcester has one advantage over Atlanta. She has a small river into which she has conveyed her refuse for a long time. But this advantage is now about to be made worthless, because the dwellers in the valley along the river declare that they will no longer permit water and air to be polluted and health endangered by the sewerage of their

city neighbors. So the city engineer of Worcester, after taking a trip to Europe to study the subject. has made an exhaustive report in which he recommends the chemical precipitation plan. The engineer found that most of the European cities used this method, employing downward intermittent filtration as an auxiliary. Irrigation he was satisfied would not snit a place like Worcester, and there were difficulties also in the way of filtration. Chemical precipitation therefore would have

to be mainly depended upon. The estimates show that the proposed change in the disposition of sewerage will cost Worcester about \$432,000 to start with, and a running expense of from \$22,000 to \$33,000 a year. With substantial modifications, it is evident that these figures could be cut down one-half.

Sooner or later we must face this problem and dispose of it. We have no large rivers to receive our sewerage. We cannot throw it out in every direction over our suburbs. Downward filtration by itself is not suited to our situation. The plan suggested by the Worcester engineer appears to be our only way out of the difficulty. It cannot hurt us, and it may benefit us to look into it.

Whooping Up Brother Blaine.

THE CONSTITUTION remarked the other day that the result of The Sun's last campaign against Mr. Cleveland ought to satisfy it. To which the Sun replies: "It did satisfy us pretty well, thank you. We came awfully near smashing Brother Cleveland and saving the democracy from the misfortunes of these four years."

This is quite an admission on the part of the Sun. It has insisted, heretofore, that it tried to elect Butler, but it now admits that it had no hopes of electing its Uncle Spoons, but came near putting in Brother Blaine. This fact is worth remembering. Would it have helped the democratic party to make Brother Blaine president? Would it have helped the country? To ask the question is to answer it. Brother Blaine has a reputation for a certain kind of brilliancy; he also has a reputation for a definite species of corruption. It is conceded by every pe

who knows the difference between honesty and the lack of it that he is not the man to occupy the chair of Washington.

On the other hand, Mr. Cleveland is both bonest and conscientions. It is true, he is rot running a partisan schedule, but he is doing the best he can for the whole country, and whatever helps the whole country will, in our opinion, help the democratic party

We le, eat what we have said heretofor to-wit: Mr. Cleveland will be renominated and re elected.

An Unconditional Surrender. A thrill of terror ran through the sinners

of New York the other morning when the stately Servia, of the Canard line, steamed up to her moorings.

At the pier numerous little groups awaited with impatience the landing of the passengers. These groups were Salvation Army delegates from various cities. They were waiting to welcome Colonel and Mrs. Booth, of London.

When the colonel and his wife stepped down the gang plank they were received with effusion, as the French say. The visitors were worthy of the demonstration. Booth is the son of the founder and general of the Salvation Army. His mission, to use his own words, is "To win America over to our King, whose dying millions shall salvation sing." In the prosecution of this laudable work the distinguished pair will make a tour of the principal cities of the country.

We feel assured that this announcement will be immeasurably gratifying and delightful to our people. In a few scattering localities there may be some ill conditioned and ungodly persons who think that they want booms, but they are clearly crazy, and no attention should be paid to them. What every community really wants and needs is a Salvation Army. Some of the toughest towns in the land, places notorious as the very citadels of sin, have surrendered willingly when they found themselves invaded "Ash-barrel Jimmie" and "Salvation Sal," and their co-workers. Resistance is out of the question. The Army conquers as it marches on.

Hardly twenty years old as an organization, the Salvationists have spread over three quarters of the globe. They are at work in all the capitals of Europe, in Asia, Africa and America. The sound of their tambourines is heard amid polar snows and tropic heats; there is an "Ash-barrel Jimmie" bobbing up serenely in every maddening crowd, and a Blue Gal fluttering wherever the breezes blow. Say what you will, laugh and sneer if you like, the Blue Gal is here, and she has the air of one who has come to stay. If we were called upon to sum up in one terse phrase the most picturesque and potential feature of this new crasade, we should unhesitatingly respond, With what has been said for and against the

Aimy and its methods, we have no concern at present. We desire simply to call attention to the growth and progress of the most remarkable organization of the century. Even here in the south, noted for its conservatism and orthodoxy, the Salvationists within the past few months have obtained a secure foothold in many citico and towns. There is apparently nothing in the way to check this sing-ular revolution. It must run its course. Objections do not seem to be in order. Everybody shows the white feather. Sinners tumble to "Ash-barrel Jimmie," and melt at the first appearance of the Blue Gal and her tambourine. This being the condition of affairs it is safe to predict that Colonel Booth and his devoted staff officer will sweep the field. If their visit results in any good, the world will find it out.

A LA WILLIAM TELL. Acquittal of a Man Who Killed Another

Shooting at a Can Upon His Head. From the New York World.

The second trial of Theus Taylor, of Mer ck, L. I., on a charge of manslaughter in the sec-nd degree, in having killed Thaddeus Griffin while shooting at a tin can upon the latter's head, at Norwood, L. I., April 15, 1886, ended yesterday in the Queens county court, Long Island City, and resulted in his acquittal, just one year after the ragedy occurred.

tragedy occurred.

Taylor was a gentleman farmer and was a crack shot. Griffin was his hired man. Both were married men, each having two children, but it was stated upon the first trial that they frequently went off on debauches together, and on one of these occasions they became acquainted with the Chapman sisters, Alice and Rens, who lived at Eayville. On the day of the Ishooting the men met the igirls at Freeport, and Taylor and Griffin, both of whom had been drinking, hired a carriage and the quartet drove

to a clump of woods near Norwood, where they ate lunch. Then they went to a neighboring tay ern, and, as Rena was drinking a glass of water Taylor pulled his revolver, and jokingly th ened to put a hole in it. Griffin, however, held out his glass and told Taylor to shoot at it. Taylor did so, and his bullet shattered the glass. He repeated this, and shot coins from Griffin's fingers. As they were leaving Griffin placed a tin can on his head and invited Taylor to shoot at it. The expert aimed and fired, and the hired man fell for-ward with a bullet in his brain. He was driven to Hempstead, where he died some hours afterward. Taylor surrendered himself to the authorities first trial was ended July 9th, and he was found guilty of manslaughter in the second degree in the Queens courtat Long Island City. The case was appealed, and the second trial ended yesterday ith the above stated result. Taylor, who was nicknamed "doctor" by those

who knew him, has a fortune estimated at \$200,000, left him by his mother, who, it is said, was closely related to the family of Edward Morgan, Jr. THE NEW MINISTER TO AUSTRIA.

General Lawton in New York and Talks of

His Appointment. From the New York World. General Alexander R. Lawton, of Savannah, Ga., the newly appointed minister to Austria, was seen yesterday by a World reporter at the New York hotel. The general is a man of fine personal appearance, and, although sixty-six years old, the burden of life seems to sit lightly upon his shoul-ders. He is slightly below the medium height, wears a full beard, which is somewhat gray, and has dark kindly eyes. To the reporter yesterday he said: "What the World published about my ap pointment and myself is entirely correct. It is perfectly true that I declined the Russian mission my own free will. Without any preliminaries the secretary said: 'The president wishes you to be our minister to Austria, and hopes you will accept at once.' I said: 'Give me a little time to think it over and I will send you my answer. I then went back to the supreme court and argued my case. Then I left at once for this city, having a little

The Intellectual Girl

From the Merchant Traveler.

Sam Sample is quite a student and consequently a great admirer of the intellectual, especially in the fair sex. The other evening he was attending a party, and made the acquaintance of a young lady whose features were decidedly of an intellectual cast. After a number of attempts he succeeded in getting her to sit out one of the dances with him. After a few preliminary re-marks Sam opened with: "Which of Shakspeare's plays do you admire the most?" "Oh, I really don't know; did Shakspeare write 'A Bunch o Keys?' I am ready to say that I admire that the most, without seeing any of the others." "Yes," said Sam, "it's a nice evening, isn't it?" "Oh, perfectly divine, isn't it just too lovely? The atmosphere is simply heavenly. I was afraid it was going to be stormy this evening. It was very cloudy this afternoon." "Yes, it was; but it's nice to night, and 'all's well that ends well." "Why, Mr Sample. I'm surprised at you; everybody says that you are so original." "Indeed! I feel complimented; but why are you surprised?" "I'm sure I've heard that remark about ending well some

Etiquette in Paris.

From the Paris Morning News. Fashion has decreed that gentlemen must not wear dog-skin gloves when making calls, these useful articles being only suitable for riding or driving wear. Kid gloves, with wide stitching at the back, are imperative in their stead. Neither must a gentleman carry a cane when visiting his lady friends. His stick, no matter how slender its proportions or how ornamental its head, must be deposited with his overcoat on the hat-rack. "I am sorry to notice that you have fallen lame," re-marked the Duchess de M. to a gentleman caller, who entered her presence carrying a cane, have not become lame, duchess," responded the visitor. "I thought you had, since you cannot get along without a stick," observed the lady.

A Story of the Burnside Expedition.

The summer of the year 1862 was particu-larly bot on the coast of North Carolina. It even

did something to counteract the more destructive heat of the civil war.

General Burnside had captured a long reach

General Burnside had established his headquarters at Newbern. No battles followed very soon. nor any storms to speak of, but the army and the weather were fast getting into a high state of preparation for either kind of event.

There were nine men huddled on that handcar

when it went. A sergeant and four soldiers were its motive power, guard and garrison. The writer of this story was there a together as an adventurer.

Two paymesters, with the rank of major and one

Watching the dust of twilight sifting down
Through chestnut boughs just touched with and
tumn's brown—
Not twilight yet, but that ineffable bloom
Which holds before the deep-etched shadowscome;
For still the garden stood in golden mist,
Still, like a river of molten amethyst,
The Seine slipt through its spans of fretted stons,
And, near the grille that once fenced in a throng.
The fountsin still unbraided to the day
The unsubstantial silver of that spray.

A spot to dream in, love in, waste one's hours!
Temples and palaces, and gilded towers,
And fairy terraces!—and yet, and yet.
Here in her woe came Marie Autoinette,
Came sweet Corday, Du Barry with ahrill cry.
Not learning from her betters how to die!
Here, while the Nations watched with bat
breath,

was breath, sturnalla of Red Death!
Was held the saturnalla of Red Death!
For where that slim Egyptian shaft uplifs
Its point to catch the dawn's and smast's drifts
Of various gold, the busy Head-sman stood.
Flace de la Concorde—no, the Piace of Blood!

And all so peaceful now! One cannot bring Imagination to accept the thing. Lies, all of it! some dreamer's wild romance—High-hearted, witty, laughter-loving France! In whose brain was it that the legend grew Of Manads shricking in this avenue. Of watch-fires burning, Famine standing guard, Of long-speared Ulans on that esplanade! What ruder sound this soft air ever smoto Than a bird's twitter or a bugle's note? What darker crimson ever splashed these walks. Than that of rose-leaves dropping from the stalk. And yet—what means that window less facade, That sculptured maple, splittered so and charrof Looming among the trees there?... And you say, This happened, as it were, but yesserday!

Adlanta: J. F. Cole, Carrollton; R. H. Taylor, Griffin.
Dr. L. L. Ledbetter, fraternal delegate from the Alabama State Medical association, was introduced, and addressed the association. He

assured the Georgia association of the cordial sympathy of the Alabama association. W. D. Bizzell, of the committee on reorganization, made a report, which was ordered printed. It provides a new constitution and by laws, and will come up for discussion at

the next annual session.

Dr. Jereme Coebran, of Alabama, was in the hall and Dr. Baird moved that he be heard hall, and in making the motion referred to him as "the father of that model organization, the Alabama State Medical association."

Dr. Cochran was received with applause and addressed the association explaining how the success of the Alabama association had been secured. He said a great deal was due to the

county organizations.

He said that if he was not greatly mistaken, there would be no such thing as irregular practice in Alabama in ten years. INVITATIONS RECEIVED.

An invitation from the ladies of the First
Methodist church was read, asking the asso-

cistion to attend a praise meeting to be held last night to suitably acknowledge the procla-mation of the emperor of China, granting re-ligious liberty to all within its domain. An invitation was received from the ladies of the Ivy street hospital, asking the members of the association to visit the hospital between

four and six o'cleck p. m., to partake of ice cresm, lemonade and cake.

Both invitations were accepted.

Dr. Love, of the committee on registration and county organization, made a report,
Dr. Nunn offered a resolution for the formation of a prize essay fund. The resolution provided that a committee on prize essays be tion of a prize essay fund. The resolution provided that a committee on prize essays be appointed to report a plan at the next meeting of the association. The resolution was adopted. Dr. Nunn read a bill which had been prepared making it a misdemeanor for any physi cian to disclose any professional secrets obtained from patients in examinations made in the practice of medicine or surgery. The bill was

referred to the committee on legislation. THE OBATOR'S ADDRESS. At half-past twelve the orator's address was delivered by Dr. William A. O'Daniel, of Laurens Hill. The address dwelt with the duties of doctors and with the peculiar sphere occupied by the physician and was an exceed-ingly able and interesting discourse. During the afternoon the sections were

called and reports were made and papers read by the following members: Dr. R. J. Nunn, of the first district, on gynacology; Dr. P. S. Hillsman, of the second district, on surgery; Dr. R. O. Ingram, of the third district, on surgery; Dr. A. A. Smith, of the third district ecology: Dr. A. W. Griggs, of the fourt ict, on surgery; Dr. J. Mc. F. Gaston, o the fifth district, on surgery; Dr. Virgil O. Harden, of the fifth district, on gynæcology; Dr. W. O'Daniel, of the sixth district, on practice; Dr. T. M. Holmes, of the seventh district, on practice. The other districts are yet to be heard from.

At five o'clock the association adjourned in At two o'clock the association adjourned in order to accept the invitation to visit the Ivy Street hospital. The entire association repaired to the hospital and inspected that model institution, which has done so much good in the past and which promises so much for the future. Ice cream, cake and lemonade was served to the visitors by a committee of ladies.

RECEPTIO From six to eight o'clock the members of the association were tendered a reception by Governor Gordon at the executive mansion. The invitation included citizens generally, and during the time allotted to the reception the mansion was the scene of a brilliant gathering. The visitors left the mansion greatly pleased with the hospitality extended by Georgia's chief executive.

At the conclusion of the feast, when the wine was flowing, the company's attention was attracted by the toastmaster, Dr. J. B. Baird, who rapped vigorously.

The time for toaste had come.

He announced as the dirst toast: "The Medicial execution of the company of the comp

ical association of Georgia."
"May it in the future, as in the past, be true to medical science: true to professional honor; true toitselt."

To that toast Dr. T. O. Powell responded most happily.

He spoke of the objects of the association and

made a most pleasant little address of about ten minutes length. The tossts and responses then proceeded as

follows: The State of Georgia: "What constitutes a state? Men who their duties know.
But know their rights, and knowing, dare main

And sovereign law, that state's collected will,
O'er thrones and globes elate,
Sits empress, crowning good, repressing ill."
Response by Dr. H. V. M. Miller.
Dr. Miller said he had been put on the programme to fill the place of Governor Gordon who had been taken sick. He could not fill the place, he said, but would try to rattle around in it. For half an hour the doctor kept the company in a roar of laughter, and when he sat down there was a storm of applause.
The Bench and the Bar:
"The law is a sort of hocus-pocus science, that smiles in yer face while it picks yer pocket; and the glorious uncertainty of it is of mair use to the professors than the justice of it."

Response by Mr. John T. Glenn.
Mr. Glenn's answer to the toast assigned to him was as witty as could be and sparkled with sarcam directed toward the profession that brought forth bread pills, rough on rats and the like. His speech was one of the happiest of the evening.
The Pharmacists:

The Pharmacists:

—Response by Mr. F. H. Richardson.

Mr. Richardson spoke beautifully in response to his toast. He referred to the peculiar temptations which surround newspaper men. He said that as a lover watched the varying moods of his fair one, so the press watched public sentiment and that the people were sure to get just such papers as they wanted. He spokesentiment and that the people were sure to get just such papers as they wanted. He spoke beautifully of the heroic deeds of newspaper men in braving the dangers of pestilence to secure the news. His address was exceedingly happy, and Mr. Rich-andson sat down amid a storm of applause.

Dr. Olmsted made a highly humorous address on "Hydrated Oxide of Ethyl"—John

BASEBALL YESTERDAY.

Memphis Defeats Charleston and Nashville

The Southern league will swing corners today, Charleston playing at Memphis, Savannah at Nashville, and New Orleans at Mobile. The result of the four games which have been played shows that either Memphis is very trong this year or Savannah very weak, and the burden of the proof is certainly in support of the latter supposition.

MEMPHIS, Tenn., April 21 .- A large crowd witnessed the opening game of the series between Memphis and Charles'on at Citizens' park this afternoon. Memphis virtually won the game in the first inning, scoring seven times. The pitcher of the opposing team stood the punishment like s man, however, and kept the Browns from scoring but one run thereafter, Andrews scoring in the second inning. The Charlestons accorded him ex-cellent support after their first disastrons inning, and played a good up-hill game. Smith, for Memphis, pitched his usual steady game, and the back-stop work of Crotty was good. In fact, the work of the whole team was excellent.

The features of the game were Carl's home run hit, scoring Charleston's only run, and the brilliant work of the outfielders of both teams. Some ter-rific drives were made toward the fielders, but everything was gobbled. Manager Powell has a fine team, and tomorrow's game will undoubtedly be much closer. Following is the score by innings:

Nashville Beats Savannah in a Very Close

Game. NASHVILLE, April 21 .- [Special.] - The umpire gave Nashville today's game by one of the rank-est of decisions, declaring fair a ball that every one in the audience knew went beyond the line. Nash-ville had two out and two on bases. The latter came in, and Hayes, who knocked the ball went to second. This hacked Savannah and they did no more good. The game was without other features. The battertes were Maul and Nicholas for Nathville and McArthur and Parker for Savannah. Nashville made six errors and Savannah ten. Nashville made thirteen base hits and Savannah eleven.

of the state against Steve Grady for violating the prohibition law was resumed and concluded. A number of witnesses were examined for the prosecution and the defense. The chief point of interest in the case was the settling of the question: 'What is nerve tonic?'

There were some witnesses who swore that they had drunk "nerve tonic" and it had not intoxicated them. Others testified to its intoxicating qualities. 'A great diversity of opinion was discissed as to its composition, its taste and its effects. The jury was charged at some length by Judge Van Epps, who told them all about the law in the case.

MAURICE ON HIS MUSCLE. Sara Bernhardt's Son in a New York Prize

Ring. New York, April 21.—At a late hour to-night it was reported up town that Maurice Bern-hardt, son of Mme. Bernhardt, had been one of the principals in a prize fight which came off in an im-provised twelve-foot ring, in a clubhouse wel known to and much frequented by the swell young

known to and much frequented by the swell young men about town. Who young Bernhardt's opponent was is not positively known, but he is said to be one Hastings, a well known fakir, and a handy man with his fists. According to reports Maurice has, ever since his arrival in New York, been anxious to sample New York science. What he starts out to do he generally accomplishes, and is is said a match was quietly arranged and fought. It was so late when the contestants entered the ring that judge, referee and time keeper were dispense i with and Hastings and Bernhardt began round one. The fight was not divided into rounds, but when it once got under way it rolled right ou until the end of the fight. The ring was knocked out of shape. Bernhardt stood like a statue of a Greek god over a fallen foe. Hastings was the fallen foe. He looked as if some one had laid him on thefloor and then jumped on him. The fakir was knocked out. An hour later he was driven to his home in a cab.

Sad Death of a Youthful Brutus. From the Globe-Democrat.

The coroner was notified yesterday afternoon of the death of John Lemoine, seventeen years old, son of Dr. E. S. Lemoine, who shot himself last Tuesday afternoon while playing with some boys in the yard in the rear of his father's residence, 1628 Washington avenue. The boy was a student at the Smith academy, and the boys with him at the time of the shooting were his schoolmates. They were playing characters in history, and the boy said: "I am Brutus after the battle, and I haven't got my sword, but I'll kill myself." and he playfully placed a little rifle to his stomach and, unde trigger and sent the bullet into his intestines. He was taken into his father's house, and Drs. Mudd and O'Reilly were called in to attend him all their efforts to prevent it, peritonitis set in and he died yesterday afternoon, as stated.

Stocks as Reported at the New York Stock Exchange.

NEW YORK, April 21.—Teday's stock market

presented a marked contrast to that of yesterday, being specially weak, and the improvement of last evening was entirely wiped out, and in many cases additional losses recorded. The feeling was bull-ish at the opening and not only foreigners but room traders were free buyers of stock. When the early demand was satisfied the entire list began to yield. The market received no support whatever, and the bears made the most of their opportunity to raid the market. Most of the list were moder ately active and generally heavy to weak, but pre-sented no special feature. Reading was attacked toward the close and sales in the last hour, when the largest decline was made, were nearly one the largest decline was made, were hearly one-half the total business in that stock for the day. The opening was firm to strong, prices generally showing advances over last evening s final figures of from \(\frac{1}{2} \) to \(\frac{1}{2} \) per cent. Under the pressure of stocks for sale the market began to yield immedistocks for sale the market began to yield immediately and slowly sagged off, and toward noon the general market became quiet and comparatively steady. After 1 p. m., however, the downward movement gathered force, and Reading and Jersey Central and Union Pacific became prominent in the decline. In the last half hour the decline was checked and the close was firm at fractions better than the lower figures. The devict business better than the lowest figures. The day's business foots up 368,000 shares. Everything on the active list is lower tonight, except three or four stocks, which show advances of insignificant fractions.

NEW YORK, April 21-C. L. Green & Co., in their report on cotton futures today, say: It has been a nominal sort of market, with prices, after shading a trifle, recovering to nearly last night's figures, ing a trifle, recovering to nearly last night's figures, and the market closing dull. A few buying orders continue to come in, and there was a little more sellifig today, the latter apparently on Liverpool account. Large operators appear to be taking matters quietly and affording no guide, while the general trade stands off perplexed between the daily growing strength of the statistical situation at home and the indifference and apparent slightly easy feeling abroad. Positive opinions over the situation are very difficult to obtain.

THE CHICAGO MARKET.

Features of the Speculative Movement in Grain and Produce.

Special to The Constitution. CHICAGO, April 21—The wheat market was one of marked activity during the early hours today, prices ranging higher, but trading became dull to-ward the close, values reacted and the market closed at identically the same figures as on yester, day. The bull leaders were in the pit at the open-ing, and their open bidding for property caused a quick advance for May delivery from 84% to 84%.C. The market reacted and ruled steady at a fraction over that figure for the remainder of the day. One of the marked features of the day's trading was the free buying for June delivery—that option ad-

vancing to 84c and closed for the day at 83%c, or within 3/c of the price of May. July option was alsolargely traded in, but advanced only a fraction. The corn market was not disposed to show much of a movement, 38%c being the popular price for May. The feature of this market centinues to be withdrawals from store mainly for the purpose of making room for wheat. The session closed easy, Short ribs continued relatively stronger than lard did, and June were more freely traded in than May, and while lard picked up 10c, ribs advanced 22½c and were in ordinarily good demand, and the latter closed at nearly outside figures.

The following was the range of the leading fu-ures in Chicago today: Highest, WHEAT-Opening.

THROUGH THE CITY.

Pavement Paragraphs Caught on the Run by the Constitution Reporters.

COMMISSION ISSUED .- The adjutant general issued, yesterday, a commission to Fred Little as junior second lieutenant of the Richmond Hussars of Augusta.

THE CITY WINS .- The superior court was engaged all yesterday in trying the ease of Obrien against the city of Atlanta. The suit was brought for the recovery of damages because of the alleged injury of the land of the plaintiff. The jury rendered a verdict for the defendant.

WILL PICNIC TOMORROW.—Miss Gillie Hall and pupils will enjoy a picnic tomorrow in the beautiful grove at the end of the West End and Atlanta streetrailroad. They will be joined there during the day by a number of friends, and the occasion will be made one long to be remembered by the little people. The grove is a charming resort and very accessible.

A SAD DEATH.—Lottie Florence, infant daughter of Mr. and Mrs. E. T. Lands, died yesterday afternoon at their home on Mangum street, after an illness of four or five days. The child was a bright treasure in the home, and her death has caused great grief. The funeral will take place from the home this afternoon, and the remains will be laid to rest in Oakland constant.

A BROKEN LEG.—Heb Fields, a negro girl, broke her left leg below the knee yesterday, in falling on the sidewalk on the southern end of Frazier street. In walking over the sidewalk the girl stepped upon a round stick. The stick rolled under the girl's weight, causing her to fall. She was carried to her home on Martin street where the necessary surgical attention was rendered.

A Broken Buggy.—A buggy belonging to Leak & Lyle, the real estate agents, corner Marietta and Forsyth streets, was badly demolished and the horse hitched to it considerably hurt yesterday about noon. A mule hitched to a dray, belonging to J. C. Wilson, the coal man, ran away, starting on Forsyth street, and colliding with the buggy broke it up, in addition to injuring the horse.

A SMALL LION .- The ferocious lions which A SMALL LION.—The ferocious itons which were painted on the fence of the new capitol and which had to be obliterated because they frightened horses, have been replaced by diminutive beasts of harmless aspect, which could not possibly frighten even the most fiery steeds which may chance to pass that way. These little lions are artistically painted in red and black. They were much looked at vesterday.

OWENS ... PARKS .- Miss Mattie Owens was OWENS. PARKS.—Miss Mattle Owens was united in marriage yesterday afternoon to Mr. Chas. Parks, the Rev. Mr. Lee officiating. The erremony was performed at the home of the bride's parents, on Ellis street, in the presence of quite a number of friends. Mr. Parks is engaged in the mercantile business in Birmingham, and left during the afternoon with his bride, who is one of Atlanta's most beautiful young ledies.

THE ALDERMANIC BOARD .- The board of aldermen convened in regular semi-monthly session yesterday morning in Mayor Cooper's office. A great many small bills passed by the council were taken up and concurred in. The most important work during the session was concurring in the ordinances, authorizing bel-gian block and rubble stone work on Merritt's avenue and Forrest avenue and the weather end of Whitehall street.

SHOT THROUGH THE FOOT .- Tom Rodgers. Shot Theough the Foot.—Tom Redgers.

a young negro man living on Butlerstreet near
the culvert, shot himself through the right
foot yesterday afternoon. Redgers was taking
a pistol from a bureau drawer, and in handling
it carelessly caused its discharge. The bullet
penetrated the foot near the instep, crushing
the bones as it went, and making a painful
wound. Dr. Westmoreland, county physician,
rendered the necessary surgical attention.

CHURCH SOCIAL TONIGHT .- The social to be CHURCH SOCIAL TONIGHT.—The social to be given at the Church of the Redeemer this evening will be an exceedingly pleasant affair. An excellent programme has been prepared, in which some of the finest musical talent of the city will participate. It being the last social given prior to the departure of the beloved pastor, Dr. Zachary Eddy, his numerous friends are all cordially invited to be present. Refreshments will be served. No admission charged.

ARBITRATION COMMITTEE'S REPORT.-There AREITRATICN COMMITTEE'S REPORT.—There was filed yesterday with the clerk of the superior court of Fulton county a report, signed by A.C. Wyly, J. G. Oglesby and R. D. Spalding, a committee on arbitration appointed by the chamber of commerce, to decide whether Aaron Haas is liable as the purchaser from S. M. Inman of \$2,500 of the Atlanta and Hawkinsville railroad stock. The sale, it is alleged, was made in July, 1886. The committee decided that Mr. Haas bought the stock and is liable for the full amount claimed.

A HANDSOME APPEARANCE.—The new cap A HANDSOME APPEARANCE.—The new capitol is rapidly assuming an exceedingly handsome appearance. The six large circular pillars have been raised in position and the ornate and massive capstones have been cemented upon the top of these posts. The large stone pieces which are to reach across these supports will be laid in position today. During the past few days the front of the structure has undergone a remarkable change. Throngs of interested spectators stand about and watch the work all day, and it is a scene well worth wit. work all day, and it is a scene well worth wit-

A MUSICAL TREAT.—A sumptuous and recherche musical feast will be provided by the Atlanta Musical association on the night of April 23. The association is very strong in its vecal and instrumental resources, and will be able to give one of the best musical entertainments ever given in this city. A most excellent programme has been thoroughly prepared and will be conscientiously rendered. Professor Sumner Salter, a most accomplished musician, is at the head of the association. For months he has been drilling the chorus singers, and he says he expects the choral work will be exceptionally good. The full programme will be published in Sunday's Constitution.

THE SCALES OF JUSTICE.—The Atlanta circuit court met yesterday morning at 9 o'clock, Judge Richard H. Clark presiding. J. J. Patterson was indicted for assault with intent to murder. The facts not sustaining the charge, the solicitor decided to nol pros. the case, and the prisoner was discharged. William Crafton was convicted of larceny and was sentenced to two years in the penitentiary. Charlie Waters Was tried for burglary and acquitted. The case of the state against C. C. Allen for forgery and in the conviction of the defendant. Owing to the fact that he is to be tried on four more counts, the court reserved its sentence. THE SCALES OF JUSTICE.—The Atlanta cirmore counts, the court reserved its sentence. The court meets again this morning at 9

Bullding Lots Sold.—J. C. Hendrix & Co., the Broad street real estate men, yesterday sold twenty-two beautiful building lots on Pryor and Doane street for \$8,430. The sale took place at 3 o'clock and was attended by a large crowd. The bidding was fast and the sale quickly finished. J. W. Morrow purchased the first lot for \$500 even. A. J. Shropshire took the next two for \$400 and \$375. C. E. Boynton purchased the next for \$400. Mr. G. B. Adsir secured the next pine at \$390, \$400, \$415, \$405, \$405, \$410, \$410, \$410 and \$500. The same gentleman purchased the next four for \$1,755. Mr. B. F. Walker bought two for \$600 and Mr. J. M. Brooks purchased the last two for \$405. The prices are said to be the full value of the lots.

THE BEST OF ALL

THE CAR ACCOUNTANTS CONVEN.

It Recomm rds the Adoption of a Low Per Diem Bate and also a Decreased Mileage Rate-Proba-bility that this System Will be Adopted by the Managers, Etc., Etc.,

The annual convention of the International Association of Car Accountants, which came to an end yesterday, was the most successful in

the history of the association.

For several years it has been the aim of those connected with the car departments of the railroads of the United States and Canada to arrive at some definite conclusion concerning the relative merits of the per diem and mileage systems of making freight charges, but at no previous convention had the car accountants been able to accomplish any real recountants been able to accomplish any real results. The Atlanta convention, however, took up the question in earnest, and the result is most gratifying to all concerned. While the action taken may not exactly meet the views of all the members, the majority of those present—yes, a great majority—heartily indorsed the recommendations of the per diem committee, and all are heartily glad that definite results have been attained.

The success of the association's efforts in this respect are very largely due to the faithful

The success of the association's efforts in this respect are very largely due to the faithful work of the committee which had been appointed to consider the per diem question. This committee consisted of E. G. Squire, of the Chicago, Burlington and Quiney, one of the pioneer members of the association, and one who has made an especial study of the per diem question; Mr. W. G. Wattson, of the West Shore; Mr. C. H. Cannon, of the St. Paul, Minneapolis and Manitoba; Mr. C. J. Fellows, of the Cleveland, Columbus, Cincinnati and Indianapolis. land, Columbus. Cincinnati and Indianapolis, and Mr. G. K. Cooke, of the New York, Lake Erie and Western. These gentlemen, after spending two days in the consideration of the

spending two days in the consideration of the various branches of the subject, presented a report favoring the "mixed" plan and making the following

RECOMMENDATIONS:

First—That the present mileage rate be reduced to one half cent per mile, and that a per diem rate of 15 cents a day be added.

Second—That the rate on four wheeled cars shall be one quarter cent per mile and 7½ cents per day.

shall be one-quarter cent per mile and 7% cents per day.

Third—That the per diem charge begin on the date of delivery, but no per diem charge shall be paid on any cars received and delivered on the same date.

Fourth—Days to be counted from one date to another, i. e., a car received April 1st and delivered on April 10th, nine days.

Fifth—Line cars shall not be subject to per diem charge except on roads not in the Line. When desirable, arrangements can be made with Line managers to hold Line cars on any road exempt from the per diem charge.

Eighth—Per diem should be paid on cars in shops, and on cars destroyed until date of notice to owners authorizing bill for settlement.

Ninth—The adoption of a junction report to owners of foreign cars which shall show the numbers of cars delivered at connections, with date of receipt and the number of days for which the per diem rate will be allowed.

Committee.
This report was taken up section by section
and carefully considered. Each section was
explained by some member of the committee and views, pro and con, were freely expressed. It was not until the fifth section was reached that there was any spirited discussion, however, but the opposition to this was small. The sixth drew out a wide expression of opinion, the representatives of private car interests and some others opposing it strongly. Mr. Spalding, of the Western and Atlantic, thought the some others opposing it strongly. Mr. Spalding, of the Western and Atlantic, thought the adoption of such a resolution would be unfair to the private car companies and would result in sweeping them out of existence. Mr. Cushman, of the Railway Car association, and Mr. Vincent, of the Kansas City Refrigerator Car company, speke in the same strain.

"The private cars are nuisances, anyway." remarked Mr. Squire.

"I hope the gentleman will qualify his remarks by saying 'necessary' nuisance," said Mr. Cushman.

But he didn't.

The sense of the convention was strongly in favor of the section and AGAINST THE PRIVATE cars which under the present system, it is ciaimed, cannot when empty be used upon the return trip as other empties are used, but are hanled back over foreign roads without bringing to those roads any revenue in any shape whetever. ing to those roads any revenue in any shape whatever. A distinction is made, however, be-tween private car companies and car trust com-panies. The car trust is, as Mr. Squire expanies. The car trust 1s, as mr. squire explained, in the nature of a mortgage, and so long as the railway companies fulfil their contracts with the car trust people the cars are the property of the railway companies. Messrs Hoyle, Wattson, Fellows, Squire, Trout, Horton and others, favored the section.

way companies. Mesers Hoyle, Wattson, Fellows, Squire, Trout, Horton and others, favored the section.

Mr. Spalding moved that it be stricken out, but his motion was lost by a vote of nine to thirty-six. The section was thenladopted.

The seventh and eight sections were unanimously adopted. There was considerable discussion over the ninth, there being quite a divergence of opinion as to the proper way to keep per diem records, but the section was finally adopted in its present shape. The resolution was then adopted as a whole.

Mr. Turbell suggested that the per diem committee be continued, and that they confer with general managers for the purpose of ascer-

with general managers for the purpose of ascer-taining their opinions upon the convention's recommendations. It was thought best that this be done at the annual time convention, this be done at the annual time convention, and Mr. Spalding urged that the committee as a whole be sent to that convention, and that Mr. Squire be continued as its chairman. Several other propositions were made, but it was finally determined to add to the committee already appointed to attend the time convention those members of the per diem committee not already on the other committee. tion those members of the per diem committee not already on the other committee. This makes the committee to wait upon the time convention consist of Mr. Hoyle, ex-officio chairman, Mr. Blakeslee, Mr. Wattson, Mr. Cooke, Mr. Squire, Mr. Fellows and Mr. Connor.

T. J. Purcell, lost car agent of the Baltimore and Ohio, and J. Fred Dunlap, of the Cincinnati, New Orleans and Texas Pacific, were made honorary members of the association.

The committee upon a cipher to use in tracing cars. made a partial report, but at their request, were continued for three months.

The business of the convention having come to an end, Mr. Wattson, after several efforts to be heard, suggested that when an adjournment was taken, it be taken subject to the call of the president. This was done, as he explained, for the reason that, in all probability, the convention's recommendations upon the per diem question would be indorsed by the general managers and would be put in effect before the end of another year. This being the case, it might be necessary for the car accountants to meet before the time fixed for the next annual convention. The convention indorsed Mr. Wattson's views, and at 1 o'clock was declared adjourned until the third Tuesday of June, 1888, unless sooner called together by the president.

THE AFTERNOON

was pleasantly spent by the members in drivfing about the city and its suburbs, and at 7
o'clock almost all the visitors left via the
East Tennessee, Virginia and Georgia for
Florida. All agreed that the Atlanta convention has been the most pleasant, as well as the
most successful, in the history of the association. The visiting gentlemen all expressed admiration of Atlanta as a city, pronouncing its
beauty only excelled by the hospitality of its
people.

Some Facts Concerning the Macon Lynchers-Governor Gordon's Letter.

There are some rather peculiar facts concerning the recent arrests of some of the Macon

lynchers.

It will be remembered that on the 12th of last Angust James Moore, charged with rape, was lynched by a mob of Bibb county men. At the October term of the Bibb superior court seven men were indicted by the grand jury for participating in the crime, but no arrests were made until a few days ago, immediately after the governor had promised a reward of \$150 each for the arrest of the persons indicted. It is understood that Governor Gordon has

written a letter to Judge Simmons, of the Bibb county superior court, calling attention to the fact that, although the indictments had to the fact that, although the indictments had been standing for four months, not an arrest was made until the reward was offered, and then three of the indicted men were arrested within a few hours after the news of the reward had reached Macon.

As those arrested had been living in Bibb county ever since their indictment—one of them in the city of Macon—some explanation from the county officers is deemed in order.

Jessica Thomas Tonight.

The firstAtlanta engagement of the new and brilliant star and company begins tonight, when the charming two-act drama of "The Daughter of the Regiment" will be given, followed by "The Loan of a Lover," a standard high-class comedy of the olden time. Great interest is attached to the appearance of Miss Thomas, her reputation as an actress and vocalist having preceded her, and her engagement bids fair to be a very successful one. No lover of song should fail to hear her sing, as her voice is so extraordinary that it is the theme of her audience wherever she appears. Reserved seats can be secured at Miller's this morning for any or all of the performances, one ticket purchased today admitting to any two performances the holder may select, as the management tenders a benefit to Atlanta theater-goers, in order that everybody may see and hear the rarely gifted little woman and her company, who come tonight to entertain and amuse us. Besides the songs incidental to the plays, Miss Thomas will sing "Way down upon the Suwanne River," which is said to be worth a dollar alone, and another song, which a southeast Alabama editor characterizes as the "Rebel Yell," and which is declared to be the climes of vocal effort. Let everybody go and hearher matinee tomorrow afternoon. Loan of a Lover," a standard high-class co

A WONDERFUL PHENOMENON

he Celebrated "Walking Man" and Why He Keeps Going-A Warning to Others. At Mill Grove, Ind., lives John Snider, the "Walking Man." In 1884 he felt muscular and nervous exhaustion, a strange restlesness, general uneasiness, and the only relief he could nervous exhaustion, a strange restleeness, general uneasiness, and the only relief he could get was by constant walking. For twenty-sight months he has tramped in a circle around and around his house, resting only four hours each day, and it is estimated he has covered more space than the circumference of the globe. He has attracted universal attention, been visited by hundreds of curiosity seekers, and has really become a public character. His nervousness has shown itself in walking; other people's nervousness acts in other ways. Sometimes the person is restless, trembles, has nervous headaches, a sinking at the pit of the atomach, a loss of appetite, inability to sleep, forebodings and general exhaustion. At other times irritability, peevishness and fault-finding are felt and life is a fearful trial. When these things come on something must be done, or this nervousness will lead to insomnia, insanity or death. Many people take morphine, optum or nareotics; but they only deaden the nerves for the time being. What people need is to assist Nature a little, and Nature itself will restore the nerve tissue and bring health and strength. The best researches of modern scientists have proven that there is nothing for this purpose equal to pure spirits, and no spirits te reliable and valuable as Duffy's Pure Malt Whisky. An authority on this subject, being no less than the well known Dr. Caldwell, who treats only nervous diseases, says:

In typhoid and nervous exhaustion I know of no remedy to approach or equal Duffy's Pure Malt

In typhoid and nervous exhaustion I know of notemedy to approach or equal Duffy's Pura Malt Whisky to bridge over a crisis or mend the broken cup of health in an emergency of immediate danger. This may be said of alcohol in general, were it not the fact that many of our whiskies are so sophisticated. These impurities are in the Duffy's Pure Malt Whisky entirely absent, thus affording a pure and safe stimulant, a true tonic.

30 N. Charles St., Baltimore, Md.

All people have nervous exhaustion at times, All people have nervous exhaustion at times, but only those who are careless permit it to continue. When it does continue it runs into the worst known troubles, which make life a burden and death a relief. People who allow this are alone to blame, for it is comparatively easy to overcome and can be absolutely controlled. By the use of the pure stimulant (but not intoxicant) above named, these fearful things may be avoided, and health and happiness succeed to sickness and misery.

A HORSE THIEF,

OR RATHER CHARGED WITH BE

A Negro Man Arrested and Carried Back to Carter ville, Where He is Charged With Stealing Sev-eral Horses-How the Their Was Detsot-ed and How He was Arrested.

John Henderson, a large, athletic negro, oc-cupied a cell in the city prison all day yester-day and up to midnight last night, when he was taken to the Western and Atlantic train, upon which he started to Cartersville in care of two officers.

Henderson was arrested yesterday morning,

and is charged with horse stealing. Within the past four weeks several horses and mules have been stolen from citizens in and near Cartersville. The thief always managed to cover his tracks so successfully that all efforts to trace him failed. The frequency of the visits and the cleverness with which the work was done, has created quite a feeling work was done, has created quite a leading among the Bartow county people. On the night of the 29th of March last the gaug called upon Cartereville, and steading a fine horse from Benjamin Akerman and a mule from a negro, left. The next morning when the theft became known the people grew almost wild, and threatened all kinds of punishment upon the thief but, as usual, no grew almost wild, and threatened all kinds of punishment upon the thief, but, as usual, no thief could be found. On Tuesday morning last Mr. Akerman went to his stables and found that another horse—a fine gray pony—had been stolen during the previous night. Immediately after Mr. Akerman discovered his loss Mr. George Hayden ascertained that a large bay horse had been stolen from him. The double theft following so quickly upon the one of the 29th again aroused the people, and the country for miles around was scoured. Postal cards were printed and sent out on the first mails. By noon one telegram was re-Postal cards were printed and sent out on the first mails. By noon one telegram was received by Mr. Akerman from Big Shanty, stating that a negro riding a bay horse and leading a gray pony had passed through that place about daylight. The description given in the telegram induced Mr. Akerman to believe that these were the horses stolen from Cartersville. Impudistly after receiving the information Mr. were the norses stolen from Cartersville. Im-mediately after receiving the information Mr. mediately after receiving the information Mr. Akerman, accompanied by a friend, mounted and started in pursuit. At Big Shanty they heard of the two horses and quickly became satisfied that they were on the right track. Leaving Big Shanty the two gentlemen heard of the horses frequently. Finally they reached the Chattahoocheeriver, and from the forwards agently that a purpose had crossed. ferryman ascertained that a negro had crossed Tuesday evening late with the two horses. It was far in the night when the gentlemen crossed the river, but they determined to push

was far in the night when the gentlemen crossed the river, but they determined to push on into Atlants. They reached the city early yesterday morning, and going to a stable to put up their tired horses encountered Patrolmen Cason and Hadley, to whom they made known their loss, describing at the same time the horses.

On Tuesday noon when Patrolmen Cason and Hadley went off duty and started home, they met a negro on Marietta street riding a horse and leading a pony. The outfit suited the description given by the Cartersville gentlemen. Believing that they had a clew to the thief, the patrolmen called at police headquarters and reported the case to Captain Crim, their commanding officer. The captain brought it to the attention of the chief of police, by whom he was instructed to investigate. Taking with him the two patrolmen who had seen the negroes and the horses the captain began searching the wagon yards. On Peters street he heard of a negro trying to sell a gray pony and finally found the pony in the possession of a Mrs. Jones, residing on Haynes street, near Peters, who had purchased it from a negro for \$20. The pony was identified by Mr. Akerman as the one stolen from him, and the negro from whom Mrs. Jones bought auswered the description given by persons along the road who

as the one stolen from him, and the negro from whom Mrs. Jones bought answered the description given by persons along the road who had seen the negro and horses. The pony was turned over to the officers and placed in a livery stable. They then began searching for Mr. Hayden's horse, and found him in Moses's livery stable, on Ivy street. Mr. Moses had traded two ponies for the horse, receiving fifteen dollars in the trade. Later the officers came upon a negro trying to sell a pony. The pony was one Mr. Moses had sold and the negro was the one with whom Mr. Moses had traded, The negro was arrested and conducted to the city prison, where he gave his name as John Henderson. After finding the two ponies Captain Crim returned them to Mr. Moses, getting in return the horse and fifteen dollars.

Henderson is decidedly a better appearing

Henderson is decidedly a better appearing negro than the majority of his race. He was well dressed, had some money, and knew just how to talk. After being locked up he was questioned closely and, among other things, said:

"I am no horse thief and the officers have made a mistake. I have been dealing in horses and cows for five years, and made my living by swapping and trading. If thieves imposed on me and sold me stolen horses, it was not my

fault."
"Did you get the horses in Cartersville?" he was asked.

"Well, while it is none of your business," he answered, "I'll say yes, I did. You see I always travel around and trade from that place. I bought the two horses from a party in Cartenwille."

I bought the two horses from a party in Cartersville."

The arrest of the negro and the recovery of the two horses induced the Cartersville gentlemen to believe that they had found the man who had been doing all the stealing in that neighborhood. He was confronted with the charge but denied it. During the day he stated that he had six hundred dollars in bank in Augusta. Chief of Police Connolly at once telegraphed Augusta about it and later in the day received an answer saying that Henderson had sixty dollars in bank. The two gentlemen carried Henderson back to Cartersville last night. After the prisoner had been put on the train Captain Crim said:

tain Crim said:

"That is a good catch sure, and Casen and Hadley deserve a reward. That negro is from South Carolina, and is a horse thief by occupation. He has stolen a dozen horses from Bartine. tow county and has never been suspected. He steals cattle too, and d know where he has dis-posed of two fine cows for whom I can find no owner. The ferryman at the river has put him over time and time again within the past three years, and every time he had new stock, sometimes horses, sometimes mules and some

THE WOVEN CORD BED SPRING.

Report of the Special Committee of the

The committee appointed at the special meeting of the Atlanta Manufacturers' asso-

meeting of the Atlants Manufacturers' asso-ciation to report upon the merits of the woven cord bed spring, and upon the proposition to establish a branch manufactory at Atlanta, made yesterday the following report: To the Officers and Members of the Atlanta Man-ufacturers' Association—Gentlemen: Your special committee appointed to carefully consider the merits of the manufacturing enterprise of the Woven Cord Furniture company, of Chicago, III., with the view of securing the location of a branch of said industry in this city, respectfully submits the following report:

with the view of securing the location of a branch of said industry in this city, respectfully submits the following report:

1. That the objects of such company are to establish a branch thereof in this city, to be controlled by our own citizens, for the purpose of manufacturing and selling woven cord bed-springs, cots, sota bottoms, hospital beds, crib springs, folding bed springs and similar articles of furniture in that line. Also to manufacture and sell thin or light mattresses, which form a part of this new method of supplying the public with improved bed bottoms and similar articles.

2. That in the manufacture of bed springs and other articles of furniture in that line, said company has adopted very simple but substantially perfect methods of mechanical construction, having among several other advantages, a knockdown frame for shipping or handling.

3. That the several articles manufactured by said company are chesp, clean, durable, convenient, comfortable and healthful.

4. That in the construction of said articles the

comfortable and healthful.

4. That in the construction of said articles the productions of our own state are or may be used exclusively. Cotton cord for ithe nettings, southern or Georgia pine for the frames and cast iron for the corner fastenings are all the materials needed.

5. That the local advantages of having a manufacturing industry of this sort in our city, one which may make a large additional demand for our home production of raw materials, and add to our home production of raw materials, and add to our wealth and population need not even to be stated to be supreciated.

6. That this new method—using a woven cord spring and very thin, light mattresses—is peculiarly well adapted to our southern climate on account of its coolness and other sanitary advant-

arily well adapted to our southern climate on account of its coolness and other sanitary advantages.

7. That this enterprise is amply protected by a patent having broad claims, the application for which was made special by order of the Hon. L. Q. C. Lamar, secretary of the interior, on account of its peculiar importance to the hospital branch of the public service.

8. That persons using this new method are greatly pleased and fully satisfied with the same as shown by the strong testimonials given to said company; and it was also awarded the first premiums at the Illinois state fairs of 1885 and '86 and the great North, Central and South American exposition in New Orleans, La., in 1885 6.

9. That the cheapness of the material used and the simplicity of construction—especially when used with a thin orlight mattress—enables the consumer to procure this new class of bed bottoms consideraby under the prevailing prices for other styles, and at the same time leaves the manufacturer and the dealer a liberal profit. So that an enterprise of this sort doing a reasonably large business and being properly managed ought to pay very fair dividends to the stock holders.

10. Your committee would therefore recommend that this association in connection with other citizens, should make a special effort to secure the location of this new and important enterprise in our city by subscribing liberally for the stock of the proposed branch company and otherwise doing what can be reasonably done for that purpose, Rufus B. LAID TO REST. Death of Two Estimable Ladies -- A Peculiar

Fact.

The funeral of the late Mrs. Goldsmith, wife of Major Turner Goldsmith, occurred on Wednesday, the interment being at Oakland. Mrs. Goldsmith was a remarkable woman, and at the time of her death was 74 years of age, while her husband, who survives her, has attained the venerable age of 84. The deceased lady's married life extended over a period of 58 years, and she leaves a large family to mourn her loss. A remarkable feature of the funeral was that the twelve pall bearers were all grandsons of Mrs. Goldsmith.

An Eventful Business Career.

Not many houses in any line of business in this country can show a business career extending over a century. The drug firm of Hazard, Hazard & Co. is one of half a dozen notable examples in this city. Its business was established in 1780, and since 1821 members of the Hazard family have been prominent in its management. The firm's name has just been changed from Caswell, Hazard & Co., but the partners and management remain the but the partners and management remain the same as for years past. The business career of the firm has been marked by integrity in the treatment of customers and consequent prosperity. They have two places of business in this city, one at the corner of Fifth avenue and Twenty-fourth street, and the other at the corner of Sixth avenue and Tairty-ninth street. At both places a system of checks and revision is in vogue in the compounding of prescrip-tions, by which there is as nearly absolute protection from error as human ingenuity can devise. The special preparations of the firm in medicine and toilet articles, as well as their in medicine and toilet articles, as well as their line of surgical instruments, are known all over the country. The high character of the house has been attained by the strictest attention to business and by merit.—New York Tribune, April 16.

Spinal Weakness and Lung Troubles. 56 PRINCE STREET, NEW YORK, March 25, 1884. Having been troubled with pains in back and chest during the last Winter I was compelled to remain at home unable to attend to business, until I was advised by a friend to try one of ALLCOCK'S POROUS PLASTERS. After applying one to my chest and one to my back, in three hours I found relief which I had not got in over three months. I cheerfully recommend them to persons having spinal weakness and lung troubles. HENRY J. GALLAGHER.

LAST NIGHT.

The Breaking Down of the Religious Wall in China Duly Acknowledged by the Christians in Amer-ics—Atlanta Takes the Initiative and Celebrates the Event, Etc., Etc.

A unique celebration eccurred last night in the First Methodist church. The members of this church and those of several other churches in the city-assembled to celebrate a wonderful victory which Christianity has lately achieved in China. The emperor of China recently promulgated an edict that throughout his empire from this time henceforth his subjects shall be permitted to enjoy the fullest religious liberty. His proclamation was circulated in all parts of his kingdom, and the missionaries hailed it with delight. It was regarded throughout the civilized world as a most remarkable thing for

civilized world as a most remarkable thing for the ruler of the "flowery kingdom" to do, and it is looked upon as a wonderful triumph for the cause of Christ.

The ladies of the various missionary societies of Atlanta decided to celebrate the event in a manner befitting its importance. They arranged the details of last night's meeting. The church was beautifully decorated with flowers and evergreens. A large floral panel was nailed upon the front of the choir loft, in full view of the large congregation. Upon this panel were worked in large green letters these words: "What Hath God Wrought." Pots of rare flowers were placed around the pulpit, and the gas posts were wrapped in evergreens and roses. These flowers emitted a fragrance which penetrated the atmosphere throughout the church.

be church.
Dr. H. C. Morrison, Dr. W. H. Potter, Dr. Strickler, Dr. Eddy, Dr. Glenn and Dr. Parks occupied seats in the pulpit. Dr. Morrison presided and introduced the speakers in his usual

sided and introduced the speakers in his usual felicitous style.

The choir, under Professor Sumner Salter's direction, rendered a number of soul-awakening pieces. Professor Snow, of the First Baptist church, assisted in the opening anthem. The music was all that could be desired.

The first speaker was Dr. Strickler, pastor of the Central Presbyterian church, who explained the significance of the event which the crowd had assembled to celebrate. He adverted to the marvelous advance in civilization which this edict of the Chinese emperor worked. He spoke of the vastness of the celestial empire and dilated upon the advantages which must accrue to the millions of Chinese because of this noble action of the emparor. Dr. Strickthis noble action of the emperor. Dr. Strick-ler's remarks were brief, but they were enter-taining and instructive. Dr. W. H. Potter was the next speaker. He

began by saying that doubtless the people who had met to join in the celebration desired to have some information about the event they were celebrating. He would, therefore, enlighten them by reading a translation of the emperor's proclamation, which had been sent him by his friend, the Rev. A. O. Parker, a distinguished missionary in China sent there. distinguished missionary in China, sent there by the Methodist church. Thereupon Dr. Pot-

by the Methodist church. Thereupon Dr. Potter read this paper:
In view of the recent troubles of the inlands missionaries, the emperor has issued and circulated throughout the empire, a very hopful proclamation. The following is a very hasty translation of the same, made by Rev. A. O. Parker, as we were journeying from Soochow to Shanghai:
"From the time of the establishment of commercial relations between China and foreign countries, several tens of years have elapsed. During this time the members of the Catholic and Protestant churches have rented houses and dwelt in the country and traveled about preaching their doctrines, which is all in accordance with the treaty. Their only object is to exhort man to the practice churches have rented houses and dweit in the country and traveled about preaching their doctrines, which is all in accordance with the treaty. Their only object is to exhort man to the practice of virtue, and they do not in any way interfere with the welfare of our people. Neither do the common people who are members of those churches become seditious persons and violators of the law, and hence do not come within the prohibitory statute against secret societies. All of us Chinese officials, merchants, literati and common people, each abiding in his allotted sphere and attending to his own business, and not seeking to overreach others, seeing that we are embraced within the guardianship and protection of the imperial government, should not become doubtful and suspicious of the Catholics and Protestants and seek to prevent them from residing on our soil. Nevertheless there is still a want of harmony between the people and the churches, and difficulties have recently arisen in consequence. At first these difficulties were only of a trifling nature, growing out of slight misunderstandings and mutual dislikes, but increasing gradually till the church members on one side and the foolish common people on the other became set in their mutual distrust. Then one or two meddlesome fellows came forward to stir up and increase the strife, and the rogues and idlers of the locality seeking occasion for thieving and robbery in confusion and riot, joined the mob and increased the disturbance. Then, when serious damage was done, and the matter could not be settled, those base fellows would deny having had anything to do with it. But the localofficials, receiving orders to investigate the matter, were obliged to make searching inquiry as to the authors of the disturbance and punish them, sometimes by corporal punishment, or in severer cases by the condiscation of the offender's property. In this way very many have been led to take part in such disturbance, This is truly lamentable.

punishment, or in severer cases by the condscation of the offender's property. In this way very many have been led to take part in such disturbances, and great numbers have suffered in consequence. This is truly lamentable.

"On account of this, the great officials have been ordered by imperial edict, dated Kwangsu, tenth year, seventh month, seventh day. to protect throughout all the provinces, and at all times, all the churches in their several jurisdictions, and prevent disturbance and riot.

"In accordance with this decree we have ordered all the minor officials within our jurisdiction to obey, and we do moreover hereby notify all classes of people, civil and military, within our jurisdiction, that you ought to know and understand the preachers and people in the aforesaid churches living together with you in the land, should receive the same treatment that guests receive of their hosts. And in the ordinary affairs of life politicness and forbearance is of the first importance. If difficulties arise which cannot be settled by the parties concerned, the only proper thing to do is to appeal to the local officials and have the matter thoroughly examined and justly decided. These officials have full power to settle such matters. Be careful, and do not in a fit of momentary anger allow yourself to fall into the net of the law. I am well acquainted with the relations of Chinese and foreigners, and of the common people with the church members, and am not afraid to take the trouble to investigate to arrive at a clear understanding of any matter. And this, not only with a view to protect the churches aforesaid, but mere particularly to the welfare of my people. Let every father command his son, and every elder brother exhort his younger brother to abate their adjer and cease strife, and turn forever from their evil way and thus avoid bitter repentings hereafter. This is what I most carnestly nope. Respect this, a special proclamation, given the fifth day of the tenth moon of the fifteenth year of the reign of Kwangsu

Kwangsu."
Dr. Eddy delivered the closing address, which was really beautiful. At the close of his remarks Dr. Morrison thanked the ladies for the admirable manner in which they had arranged the details of the celebration. Then the long-meter doxology was sung and the meeting came to an end.
